QHSSE POLICY

Weldcoat and Design Limited (WDL) is a Professional Training, Certification and Project Designs Company established in Uganda E.Africa. Our courses lie in Project quality management systems that are designed to ensure Quality and Safety in all industries, Project Designs that are designed to produce professional Designers that can easily find opportunities in all Industries. We also offer project designs basing on the requests from our clients in Plant, Piping, Civil/ Structural and equipment designs.

In all our services, Quality Health, Safety, Security and Environment (QHSSE) leads.

The management is determined to achieve QHSSE through;

1. Insurance of safe and healthy working conditions with a sound management of QHSSE throughout our activities.

2. Elimination/Mitigation of hazards to reduce occupational health and safety risks in our activities.

Our staff, Visitors and Trainees are required to show commitment to this policy through;

1. Compliance obligations by the fulfillment of legal requirements and required standard operating procedures of our workplaces.

2. Consultation and participation of staff members, Visitors and Trainees in workplace QHSSE procedures.

3. Protection of the environment, through a sustainable use of resources like energy by reducing its use; protection of biodiversity, habitats, and ecosystems of each activity through their conservation; mitigation of climate change, avoiding or reducing greenhouse gas emissions promoting solar energy or throughout offset the carbon emissions; prevention of pollution by using a waste management in each project promoting the recovery and treatment of waste.

The Company constantly monitors its QHSSE performance and implements improvements when appropriate.

This QHSSE Policy is regularly reviewed to ensure its continuing suitability.
